

Comprehensive Primary Care (CPC) for Kids

2023

CPC for Kids

Eligibility for CPC

- Eligible provider type and specialty
- Size
 - At least 500 claims-only members to participate independently or as a partnership
 - At least 150 claims-only members to participate via a practice partnership

Eligibility for CPC for Kids

- Entity participates in Ohio CPC - as a practice partnership or practice participating independently¹
- Entity has at least 150 pediatric members²

Note: CPC entities can elect to participate in CPC for Kids during regular CPC enrollment

Note: CPC for Kids is administered at the entity level (e.g. quality metrics, performance on bonus activities)

¹ CPC entities may be a practice partnership made up of CPC practices, or a practice participating independently.

² Based on claims-only attribution at the entity level; pediatric members defined as members under age 21.

CPC for Kids Bonus Activities

Additional Supports for Children in the Custody of a Title IV-E Agency	<ul style="list-style-type: none"> Identify children in the custody of a Title IV-E Agency in the electronic health record (HER) (e.g., registry, flag in EHR, list from MCOs) and identifies primary caretaker/medical decisionmaker for the child Collaborate with others including the Public Children Services Agency (PCSA) to ensure that children have their needs met (e.g., obtaining medical, dental, and behavioral records or getting access to community resources)
Integration of Behavioral Health (BH) Services	<ul style="list-style-type: none"> Offer either a co-located BH pediatric provider or have an established partnership with a pediatric BH provider(s) in the community. Utilizes standardized pediatric screening tools (e.g., PHQ-A, M-CHAT™), refers patients utilizing a standardized policy and workflow, and tracks outcomes to ensure appropriate BH services were obtained Collaborates with MCOs to refer patients to OhioRISE and ensure administration of CANS assessments when needed and to identify behavioral health providers as needed.

CPC for Kids Bonus Activities

<p>School-Based Health Care Linkages</p>	<ul style="list-style-type: none"> • Identify the needs of local schools by utilizing demographic data, a community needs assessment, or by inquiring what the health-related needs are in the schools • Establish a relationship with local schools (e.g., attends kindergarten readiness, assists with IEPs, holds health fairs, completes sports physicals, provides education/wellness programming, athletics team clinician) • Determine a process for bi-directional communication that is compliant with the parent(s), with applicable consents sent via secure fax or a shared EHR
<p>Transitions of Care</p>	<ul style="list-style-type: none"> • Utilize a standardized process to transition pediatric members to adult primary care at age 14 by sharing options for non-pediatric care and creating goals with the pediatric member and their family • Support member self-sufficiency and health system navigation for highest risk members (e.g., children in a PCSA, has BH needs, and/or intellectual disabilities) including the use of a transition readiness assessment • Identify community and/or family supports a pediatric member may need including BH, education, employment, housing, medication, and food, training, or education as needed

CPC for Kids Bonus Activities

Select Wellness Activities

- **Lead screening** - Complete blood lead screening either by finger or heel stick or venous draw at ages 1 and 2 or up to age 6 if no previous test has been completed based on member risk factors or implement a lead testing process which includes blood draw through a local laboratory, a co-located laboratory, or onsite in the office
- **Community services and supports** – Conduct social determinants of health (SDoH) screening upon entry and annually using a standardized tool and covering at least 5 domains (e.g., transportation, housing) and apply the results of the screening to identify the need for referrals
- **Tobacco cessation** – Screen adolescents for nicotine use and either refer or directly care for the member in need of cessation programs
- **Fluoride varnish** - Train practitioners and routinely deliver fluoride varnishes OR refer patients to an onsite or offsite dentist
- **Breastfeeding support** - Offer a lactation consultant onsite, at a local hospital, or through the Ohio Department of Health (ODH) breastfeeding hotline or provide support to members who are mothers who breastfeed (e.g., allow extra time in room, provide special room for breastfeeding, share resources on breastfeeding support groups, offer walk-in weight checks)
